Total Reports counter in header strictly duplicates Verified Bugs count"

Module: CATALOG • UI / Visual Glitch

Steps to Reproduce:

- 1. Navigate to the PM SHRI Bug Bounty Hub dashboard.
- 2. Observe the top metric summary cards showing Total Reports, Under Review, and Verified Bugs.
- 3. Compare the Total Reports number against the sum of Under Review and Verified Bugs when unverified reports exist.

Expected Behavior:
Total Reports should reflect the cumulative count of all submitted reports regardless of status (Verified + Under Review + Rejected).

Actual Behavior:
Total Reports only mirrors the Verified Bugs total count, ignoring pending or unverified submissions in the queue.
